

Alena M. Reyes, Ph.D.

CURRICULUM VITAE — JUNE 2025

Address 1 Harpst St, Arcata, CA 95521 · **Email** areyes@humboldt.edu · **Phone** (707) 555-0142

Position Associate Professor of Phycology · Director, Cryptogamic Herbarium (HSC)

Education

Ph.D., Marine Botany	University of California, Santa Cruz	2011
M.S., Biology	San Francisco State University	2006
B.S., Marine Biology	University of Washington	2003

Academic appointments

-
- Associate Professor, Cal Poly Humboldt — 2018–present
 - Assistant Professor, Cal Poly Humboldt — 2012–2018
 - Postdoctoral Researcher, Bodega Marine Laboratory — 2011–2012

Research interests

Systematics and reproductive biology of calcifying red algae (Corallinales); molecular delimitation of cryptic coralline diversity along the northeastern Pacific coast; intertidal community response to visitor pressure and marine heatwaves.

Selected publications

-
1. Reyes, A.M., Nadar, P. & Martone, P.T. (2023). Tetrasporangial phenology in *Corallina vancouveriensis* across a latitudinal gradient. *Journal of Phycology* 59(4), 612–627.
 2. Reyes, A.M. & Hind, K.R. (2020). DNA barcoding resolves crustose coralline diversity in northern California tidepools. *Phycologia* 59(2), 141–155.
 3. Marsh, H., Reyes, A.M. et al. (2019). Curation standards for pressed coralline vouchers. *Herbarium Notes* 12, 33–41.

Grants & certifications

- NSF Systematics & Biodiversity Science, DEB-2043118 (PI), 2024–2027.
- AAUS Scientific Diver — current; DAN insured through the institution.
- CA Department of Parks & Recreation Scientific Collecting Permits, 2014–present.

Prepared June 2025. Submitted in support of Scientific Research & Collection Permit application no. 26-635-017.
