

Standard Conditions Agreement

SIGNED · PERMIT 26-635-017

By signing below, the permittee agrees to abide by the standard conditions governing all scientific research and collection permits issued by the Department. These conditions apply in addition to any special conditions attached to the issued permit.

Standard conditions

1. The signed permit must be carried by field personnel during all activities and presented on request.
2. Collection is limited to the approved study areas and to the taxa and quantities listed under Data Collection.
3. No collection within posted marine reserve or special-closure boundaries.
4. All collected specimens are State property and must be curated at the approved facility.
5. No use of power tools, chemicals, or substrate removal beyond what is expressly authorized.
6. Field activities must not disturb wildlife, cultural resources, or other park visitors.
7. An annual report is due by the date stated on the permit; renewals require a summary of results.
8. The Department may suspend or revoke the permit for non-compliance.

The permittee acknowledges having read and understood each condition above.
